

During grounds week, Badgers used personification to write poems about poppies in the war.

We visited the woods to practice the skill of using personification early on in the week before using this to entice our imaginations for writing in the role of a poppy for our poem write. We had a wonderful time collecting ideas in our small groups and bringing these back to the classroom to discuss.

We also used leaves from the woods to create some wonderful art work with the support of Mrs Pritchard. We created some amazing flags!
